

Visionary **Architecture**

RiversideFive boasts creative world-class design elements that are sure to set the standard for new office construction within the region. Breathtaking exterior modern architecture, tilt-up construction and abundant glass differentiate **RiversideFive** from the area's more traditional structures.

Building highlights include:

- Distinctive design, superior quality, exceptional functionality
- Four-story modern tilt-up concrete construction
- 126,151 SF of Class A office space

Exterior envelope highlights include:

- Grey-tinted insulated windows
- Prominent two-story glass canopied building entryway
- Fully-adhered TPO roof system
- State of the Art and HSPD-12 compliant building access security system
- High-efficiency HVAC system
